

Public Advisory

Fall 2011

A large number of bears have already been destroyed in Revelstoke this year!

Please take responsibility for any bear attractants that you may have.

- Keep your **garbage** securely stored **INSIDE** a locked, secure building until garbage day.
- Ensure any **fruit** you have on your property is **PICKED** and fallen fruit is removed from the ground. Contact Revelstoke Bear Aware regarding The Gleaning Project.
- Secure **birdseed, livestock feed or pet food** in a place not accessible to bears.

If you see a bear in your neighbourhood, please call 1-877-952-7277. By failing to report a bear sighting or problem, you are contributing to the likelihood of that bear being destroyed. When reported, education can occur, attractants can be removed, and the bear given a chance to move on.

Thank you! Together, we can create a safe, Bear Aware community.
